LandMark Construction's Park-90 building wins design build award

ROCKFORD, Ill. – LandMark Construction Management, a division of LandMark Group Companies, is proud to announce it has won a national Excellence Award from Metallic Building Company for its industrial design build project, HMC Products, located in Machesney Park.

Metallic Building Company recognizes its builders for their creativity, innovation and craftsmanship in its annual Design Build competition. Award winners were featured in *Metal Architecture* and *Metal Construction News* magazines. LandMark's building won the No. 1 spot in the Industrial Category.

The 90,000-SF, multi-tenant building is located at 7165/7167 Greenlee Dr. in Park 90, a 220-acre, regional, commercial and logistics center located at the northeast corner of I-90 and IL 173. The building is constructed with IPP II, dual-sided, insulated 2-inch metal wall panels. It is equipped with two 14-foot by 14-foot drive-in doors and four 10-foot by 10-foot recessed docks with shelters, bumpers and 40,000-lb. mechanical levelers.

LandMark Group meets the design-build, construction management, development and capital needs of businesses. With over 50 years in commercial real estate, LandMark has built, leased sold and represented millions of square feet of building space throughout the United States.

Metallic Building Company manufactures custom-engineered metal buildings of the highest caliber. The company serves its markets with a strong builder base and has more than 3.5 million square feet of manufacturing space strategically located throughout the U.S. and in Mexico.
