

# Employee and Guest COVID-19 Monitoring Program

Balancing health & wellbeing with economic concerns has weighed heavily on all our minds. As we begin to look toward the day we can open or more fully open our businesses, we must also closely adhere to safety protocols in order to protect our employees and mitigate risk.

Undoubtedly, you have taken steps to ensure that the space within your company is sanitized and may be occupied, safely. It is also important to minimize the risk of spreading the virus by implementing a monitoring program.

Even though we are eager to resume an active life, we understand that employees and guests want to know that they are in a safe environment. To help you meet these expectations, we are committed to partnering with businesses to monitor employees' ongoing health.

***We want to help you be fully operational!***

## Program Details

A Certified Nursing Assistant (or similar health care worker) will screen employees and guests at your facility following the CDC guidelines, including:

- ✓ *Check temperature*
- ✓ *Complete health screening questionnaire*
- ✓ *Secure required authorizations*
- ✓ *Complete required documentation*

\$24.75/hour per medical professional
